

Underfloor Heating Products

Amuheat Floor Heating Products & Accessories

Amuheat Underfloor Heating Products Cable Mat (in-tile adhesive or in-screed) Free-form cable attached to a fibreglass mat for in-tile adhesive or in-screed installations. Easily configured on site for any room layout. Amuheat's popular tile floor heating system.

[More about Cable Mat](#)

Cable Strip (in-tile adhesive) Features a ultra-thin 1mm electric heating cable design for in-tile adhesive installations. Suits renovations with floor build height restrictions - does not raise floor levels.

[More about Cable Strip](#)

Laminate Panel (under carpet & rugs)

Installed directly between the carpet and underlay. Laminate Panel' 1mm heating element does not add height to the floor, and is not felt through the carpet.
